July 2023

### **MissionSAFE Youth and Staff Empower Young Basketball Campers Through Resilience and Communication at Connective Inc.'s Summer Camp**

MissionSAFE collaborated with Connective Inc. to offer a basketball camp that provided valuable lessons on resilience and effective communication.

MissionSAFE volunteers served as mentors, teaching younger athletes the importance of staying strong and determined in the face of adversity. The program also emphasized the significance of clear and compassionate communication to navigate difficult situations on and off the court.

The picturesque Oak Bluffs Beach location provided an ideal backdrop for fostering personal growth and building connections among the youth and staff involved. Through initiatives like this, MissionSAFE continues to empower young individuals, helping them unlock their full potential and break the cycle of generational poverty through community service.
